COVID-19 RAPID TESTING NOW AVAILABLE

**Book Occupational COVID-19 Rapid Testing and Preventive Care with
Inland Urgent Care**

Inland Urgent Care will now be conducting **COVID-19 RAPID TESTING** at our Canyon Hills location, beginning 01/04/2021.

IUC is here to provide occupational medicine needs for employees and their health, in order to reduce the spread of COVID-19 in your workplaces.

As essential workers continue to operate, the broader population is returning to work, which means that the risk of spreading COVID-19 infection will increase. Since social distancing is diminished among the general public, spikes in COVID-19 are very possible without proper safeguards. The objective of active surveillance testing, occupational medicine, and routine health screenings within corporate environments is to prevent the spread of COVID-19 among your employees.

IUC provides occupational medicine and employer health services for a variety of needs. First-Aid injury treatment, Worker's Compensation, Employment Fit-for-Duty, DOT Physicals and Drug Screening are a few services that are available to employers. However, we are also expanding these services to include:

*COVID-19 (RAPID) (15 Min. Results)	\$150.00
*COVID-19 PCR TEST (2-3 Day Lab Results)	\$100.00
*COVID-19 WORK NOTE CLEARANCE (Neg. Test Req.)	\$ 35.00

**Group on-site workplace COVID-19 RAPID testing, available by request. Please, contact
our Corporate Office at the number below for details.**
